

The Engineering Honor Society

Tau Beta Pi at the University of Florida

2018-2019

We, the members of The Engineering Honor Society, are individuals of all engineering disciplines who excel in scholastic standing and possess high character. We volunteer with humane societies, Alzheimer's patients and individuals with disabilities. We help our community grow through our K-12 STEM outreach program, GatorTRAX. We take care of the earth by frequently cleaning our adopted street. We make the world brighter by participating in the Out of the Darkness Walk. We strive for excellence in every task we take on, and we have fun while doing it. We are a team, but we call ourselves a family.

We are Tau Beta Pi.
